

## READ BEFORE FIRST USE

# NINJA thirsti™ TRAVEL BOTTLE

## USE AND CARE GUIDE

**Ninja Thirsti™ Travel Bottle** is a revolutionary drinkware solution that is designed specifically for carbonated drinks, enabling you to **start fizzy & stay fizzier** on the go with your favorite carbonated beverage, including drinks dispensed from our Thirsti Beverage System.

### TIPS FOR MAXIMIZING YOUR BOTTLE'S PERFORMANCE:

- Limit the amount of shaking—the less movement, the more bubbles will be retained in your drink
- Fill your bottle to the max rated capacity (e.g., 532 mL). The closer you fill to the max capacity, the longer your carbonation will last
- Be sure to replace your cap after each sip to limit the amount of time the carbonation has to escape the bottle

### CARBONATION TECHNOLOGY:

Engineered with a super-polished interior to prevent nucleation points that cause bubbles to escape and make your drink go flat faster. Our surface finish is smoother than the leading competitor's so our bottle keeps your drink carbonated for longer.

This bottle is designed with a safety release valve to enable pressure to escape in the unlikely occurrence that there is excessive pressure buildup in the bottle.

### BUBBLELOCK™

Starts Fizzy.  
Stays Fizzer.  
vs. popular travel bottles

### TRIPLE THERMO™

Cold for 24 hours.  
Ice for 2 days.  
Hot for 12 hours.

### LEAKLOCK

Engineered to not leak, drip, or spill.  
(Even with fizz!)

## CARE INSTRUCTIONS:

Product is dishwasher safe, however hand-washing is recommended. Wash before initial use. After each use, wash all parts in warm, soapy water. Use only mild dish soap to clean—no bleach. For thorough cleaning, remove gaskets from cap; clean and dry before reinstalling. Dry before storing, and store with cap removed. Do not use abrasive cleaners; they may dull the super-polished finish.

## WARRANTY INFORMATION:

We guarantee every Ninja bottle with a 5-year limited warranty against manufacturer defects. For details visit [support.ninjakitchen.ca](http://support.ninjakitchen.ca)

## CAUTIONS AND WARNINGS:

### ⚠ CAUTION ⚠

Use caution when filled with hot liquids to prevent scalding and burns.

- 1 ALWAYS** test temperature of contents before consuming.
- 2 DO NOT** use container for storage of food and perishables. Contents should not be left in container for longer than 24 hours. However, the rate at which contents spoil depends on several factors. Certain contents that include dairy or tomato may start to spoil sooner, for example.
- 3** If contents are left in container longer than 24 hours, or you suspect spoilage, use caution when opening container and do not consume. Contents spoilage can cause pressure inside the container to build. If pressure buildup occurs, the lid can be difficult to remove or forcefully eject and cause injury from the lid or ejected contents. In such circumstances, before attempting to open container, **ENSURE THE OPENING IS POINTED**

AWAY FROM THE USER OR OTHER PERSONS TO AVOID INJURY.

- 4** If you are unable to open container by hand, do not open it and return it back to SharkNinja.
- 5 DO NOT** overfill. Leave space at the top to prevent leakage and overflow.
- 6** Check periodically to make sure any gasket (flexible band around inside of lid) is present and properly positioned to prevent contents from leaking. Missing, worn, or misaligned gaskets may cause product to leak.
- 7 DO NOT** use to store or carry dry ice. This may cause lid/stopper and contents to eject forcefully, which may cause personal injury or leaking.
- 8 DO NOT** use product in microwave, on stovetop, or in any type of oven. Fire and personal injury can occur.
- 9 DO NOT** shake product. Doing so may agitate the liquid and cause it to overflow, lose carbonation, and/or eject forcefully, which may cause personal injury or leaking.

- 10 DO NOT** place any component of the product in the freezer as this can damage the vacuum insulation.
- 11** Open cap periodically to relieve pressure.
- 12** The umbrella valve can be removed for cleaning. This can be a choking hazard for small children.
